MY DEAR SIR,—The following circular has been sent to the medical correspondents of the Board; but we would like also, any information which the town or city clerks may be able to give. Will you be kind enough to inform us whether the registration and causes of deaths is complete and satisfactory in your town? If not, please suggest any deficiencies of which you are aware, whether *all* deaths are returned to the undertakers, whether the undertakers themselves return them promptly and accurately to the clerks, in what proportion of cases the *causes of death* are reported by the physicians, etc., etc.

The Board will be glad to have as *full* and extended remarks as possible. If you have no suggestions to offer, please return the circular with that statement.

In behalf of the State Board of Health,
